Work Experience

Multilynx Head office lahore [Link]
Punjab, Pakistan
Software Engineer Dec 2023 - Present

- Develop and maintain web applications using PHP frameworks such as Laravel and CodeIgniter.
- Collaborate with cross-functional teams to implement front-end designs using HTML, CSS, JavaScript, jQuery, and Bootstrap
- Optimize application performance and ensure code quality through testing and debugging
- Work with databases to design, query, and manage data structures for efficient processing and retrieval
- Participate in code reviews, version control management, and agile development processes to deliver high quality software solutions.
- Develop and maintain multi national project Honda Pakistan website (Link) mobile app booking portal (Link)
- Develop and maintain MG pakistan website by using next.js and laravel (Link)
- Develop and maintain Jazz pakistan SSP (self service Portal) Garaj (Link)

NY Digital [Link]
Punjab, Pakistan
Internship March 2023 - Dec 2023

- Assisted in the development of web applications using PHP, HTML, CSS, and JavaScript under the guidance of senior developers.
- Supported in debugging and troubleshooting code issues, contributing to the overall stability of projects
- Gained experience in database management by writing SQL queries and performing data operations.
- Participated in team meetings, code reviews, and collaborative projects to enhance understanding of software development practices.
- Contributed to front-end design adjustments and minor feature implementations, gaining exposure to real world development environments.

Other Projects

Sogaat (Link)
Point of Sale

- Designed an intuitive React-based frontend for seamless order processing, inventory management, and customer interactions.
- Developed a POS system using the MERN stack (MongoDB, Express.js, React, Node.js) to handle product sales, invoices, and real-time transaction tracking.

Go VPN (Link)

- Developed a VPN system ensuring encrypted communication to protect user data from cyber threats and unauthorized access.
- implemented efficient server routing and optimization techniques to provide high-speed, stable, and seamless connectivity.

BreknBall (Link)

- Built a fully responsive and user-friendly eCommerce website using Shopify, integrating themes, product catalogs, and secure payment gateways.
- Implemented speed optimizations, SEO best practices, and custom Shopify apps to enhance user experience and increase online visibility.

Pet Experts (Link)

- Developed a Shopify-based website specializing in pet food and accessories, featuring an intuitive layout and seamless shopping experience.
- Integrated secure payment gateways, subscription options for pet food deliveries, and personalized product recommendations.

Yumeaz (Link)

- Successfully integrated Yumeaz project APIs to enable seamless communication between the mobile application and the backend system.
- Ensured efficient API responses for smooth user experience, handling authentication, product listings, and order management within the mobile app.

Skills & Interests

Languages:	English, Urdu
Software Languages:	HTML / CSS / Bootstrap / Javascript / PHP / PHP Framework (Codeigniter, Laravel) / Managing Databases (MySQL)/ Next.JS / Flutter
Interests:	Software Development, AI , Information security
Learning Python & Django:	Studying Python programming and its Django framework to enhance backend development skills.
Mastering DSA:	Focusing on Data Structures and Algorithms to improve problem-solving and coding efficiency.

Courses & Certifications

- Web development Course offered Tevta at Knowledge house institute of Technology [Certificate]
- Certificate of completing Wordpress course form Digi Skills Platform.[Certificate]
- Certificate of Completing Freelancer course from Digi Skills Platform[Certificate]
- Certificate of Completing SEO course from Digi Skills Platform[Certificate]
- Certificate of Completing SEO content Writing Course for blogging and affiliate marketing form Learn Online Platform[Certificate]
- 3 month course of Computer MS office (MS Word, MS Excel, Powerpoint)
